SUMMARY

BACB-certified Registered Behavior Technician and Google-certified UX Designer, building end-to-end product case studies in Figma and Claude Code. Brings a research-driven mindset from clinical behavior analysis — structured data collection, hypothesis-driven observation, and iterative plan refinement — directly into usability testing and design decisions. Bilingual (English/Spanish); strong collaborator with cross-functional teams.

UX / PRODUCT DESIGN PROJECTS

Leaf — Plant Care App *Google UX Design Certificate Portfolio Project*

- Led end-to-end UX process — personas, competitive audit, value proposition, and How-Might-We framing through hi-fi prototyping.
- Built a full design system and component library in Figma; developed with Claude Code via Figma MCP.
- Ran a moderated usability study with 5 participants (SUS score: 76) and shipped flow revisions based on findings.

Cata — Wine Journal & AI Pairing Assistant *Personal Project*

- Designed a responsive web app end-to-end — sitemap, wireframes, full design system, and hi-fi mockups.
- Built with Figma and Claude Code via Figma MCP, from concept through implementation.

CloseDoc — Healthcare Provider Finder *Google UX Design Certificate Portfolio Project*

- Led end-to-end UX process for a healthcare-provider finder app — research, personas, sitemap, and both lo-fi and hi-fi wireframes across app and responsive web.
- Ran a moderated usability study with 5 participants (SUS score: 89.5) and shipped iterative design changes based on findings.
- Built and connected a 22-interaction hi-fi prototype in Figma with Claude Code via Figma MCP.
